**DETAILED ACTION**

***Response to Amendment***

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 8, 11, 14, 17, and 20 are rejected under 35 U.S.C. 102(b) as being anticipated by Hunter (4,479,516). Hunter discloses a drive mechanism comprising an epicyclic gearbox (18) and a method of assembling a drug delivery device comprising an epicyclic gearbox. The limitation of “for a drug injection device” is regarded as functional language and is not been given much patentable weight. Hunter still discloses a drive mechanism comprising an epicyclic gearbox.

***Allowable Subject Matter***

Claims 9-10, 12-13, 15-16, 18-19, and 21-25 are allowed.

***Response to Arguments***

Applicant's arguments filed 6/14/2007 have been fully considered but they are not persuasive. See arguments presented above.

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
